

## Update Okta Verification Passphrase in Okta

Your verification passphrase is a unique word or set of words you can set up in order for your account to be verified if needed by Magellan or Magellan Federal's IT groups.

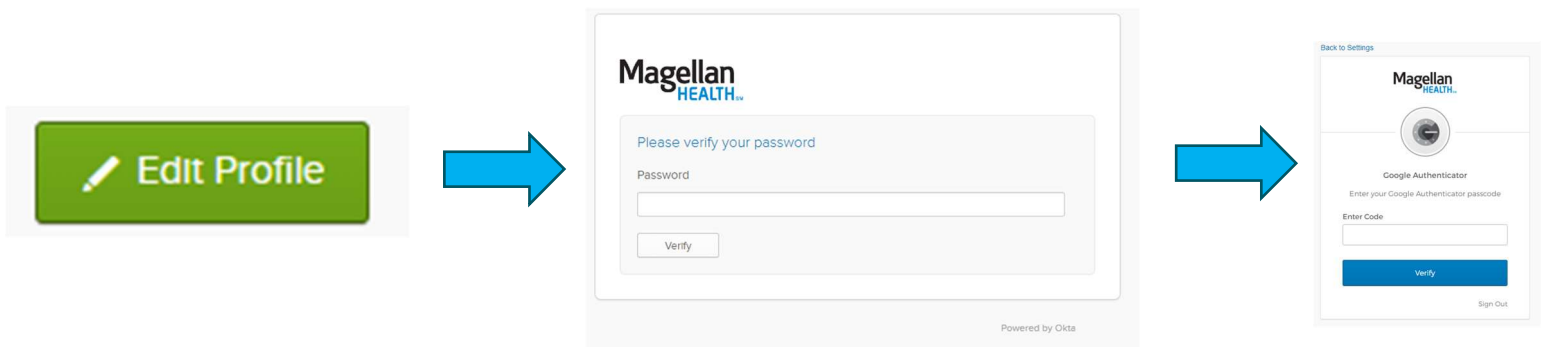

**Step 1:** Locate the dropdown menu (top left next your name)

**Step 2:** Select Settings

**Step 3:** Select Edit Profile, then verify your password & Authenticate (this method may vary depending your preset preferences)

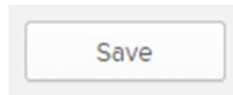

**Step 4:** Select the Edit button (near personal information). Then, create your personalized verification phrase.

The screenshot shows a dark grey header bar with a person icon, the text "Personal Information", and an "Edit" button. A blue arrow points from the "Edit" button to a light grey box containing the text "Verification Passphrase" and an empty text input field.

**Step 5:** Save!

A rectangular button with the text "Save" centered inside.
